# PARENTING AND THE ENNEAGRAM

Thursday 27th October 2016

Hollie, Robert & Russ present a one-day gathering on how to use the Enneagram to support you on your parenting journey. They will use the wise and loving lens of the Enneagram - the oldest self-awareness tool on our planet, dating back 2,500 years - to help you better understand how different Enneagram Types relate in a family setting. Key themes include:

### My Enneagram Type

an overview of each of the nine Types.

### Nine Parenting Styles

strengths and challenges of each Type.

### Understanding My Child

exploring your child's personality type.

### Growing as a Parent

through greater self-awareness and self-love.

NOTE: No previous experience of The Enneagram is necessary. We do recommend you take an Enneagram Test. Please contact us for more details. This workshop is for adults only, with the exception of nursing babies. No crèche facilities available.
